

BROSIX

A secure, communication tool for business

Brosix Enterprise is an instant messenger for strict and confidential business purposes.

Your instant messaging network is hosted on Brosix cloud which does not require any configuration or maintenance.

By having a private instant messaging network, you can be sure that instant messaging, video and audio calls, screen shots, and remote computer control are only available to authorized users.

BROSIX GIVES YOU:

FULL CONTROL

Over your messaging network

ONLY BUSINESS CONTACTS

No private chat at work

MOBILE VERSION

Works on iPhone & Android

HIGH SECURITY

Strong 256-bit encryption

BUSINESS FEATURES

Rich set of features including screen sharing, remote desktop control

"Our favorite aspect is having full control of the network."

David Farache, Fortune3 Inc.

"Brosix increased our productivity during troubleshooting exponentially!"

Robert G. Hoover, TriTek Corp.

Many companies benefit from Brosix Instant Messenger:

OREGON.gov
