

Brosix: Streamlined Business Messaging

What is Brosix?

Brosix Enterprise is a secure instant messaging solution built exclusively for business. It offers fast, reliable, and confidential communication that empowers organizations to stay focused and efficient.

Key Benefits

- **Effortless Management & Cost Savings:**
Brosix provides a user-friendly, web-based Administration Console. Managers can easily control user accounts, chat histories, features, and integrations—all without the need for a specialized IT department or extra investments in hardware, software, or cloud services. This streamlined management helps employees focus on their core tasks, reducing overall costs while boosting productivity.
- **Seamless Integrations:**
Integrate Brosix with other applications to unlock limitless possibilities—from order notifications to calendar reminders—delivered directly within the platform.
- **Cross-Platform Connectivity:**
Available on Windows, Linux, Mac, Android, and iPhone, Brosix ensures a consistent, secure communication experience across all devices.
- **Unmatched Security & Authorized Access:**
Diverse encryption protocols protect your data by securely transferring information between client systems—without processing it. This ensures that only authorized users access your messages, file transfers, remote controls, and screenshots, guarding against external threats and easing compliance with regulations (e.g., HIPAA, HITECH, SAS-70, SSAE 18)

What Our Customers Say

"Our favorite aspect is having full administrative control of the network."

– David Farache, Fortune3, Inc.

"Brosix increased our productivity during troubleshooting exponentially!"

– Robert G. Hoover, TriTek Corp.

"Brosix is a great team building tool! We have multiple offices and this communication tool is vital. We have used Brosix for more than 5 years. I can't remember ever having a problem or the service being down."

– Tracy R.

"It's simple, private and secure. Unlike Skype there's nothing else to distract you. Brosix has all the features you need to communicate, assist, and work with clients. I give it my full recommendation as I've used it for hundreds of clients over the last 10 years."

– Mark A.

Why Choose Brosix?

Modern, professional, and designed to instill confidence, Brosix Enterprise is the definitive solution for organizations seeking enhanced productivity, uncompromising security, and effortless integration. Discover a messaging platform tailored to your business needs—secure, simple, and cost-effective.
